“As soon as one starts plotting an approach designed to deal with a sagging economy, animal flu, and bad hair, a tipping point is reached in their life, and the threat becomes a reality”.

### Welcome to Winter.

**As we fast approach the middle of the year, it is a good time to take stock of how your goals and resolutions are going.**

**Have you bolted out of the gates with enthusiasm and intention and reached the goals you set? Fantastic.**

**Or maybe you have plodded along slow and steady and have achieved some of the goals. Well done.**

**Or maybe you have found, with even the best of intentions, that along the way you have gotten distracted, waylaid and given up. Congratulations, you are not alone.**

**Too often we set such high expectations and goals, that in reality we can't find the time, the motivation or the ability to achieve them.**

**Relax, you can change your life TODAY.**

**If you have found yourself floundering, wondering where the time has gone and realising, again, your life has stayed the same, and that you do WANT a different life, then life coaching can help you.**

**Winter is a great time to slow down and take a look at your life. To become clear on the areas of your life that are working well and which areas require change.**

**Maybe your career is flourishing but your relationships are suffering? Or you have healthy relationships, but hate your job?**

**Wherever you feel dissatisfied, frustrated or angry is often the area where the greatest change is required.**

If you want to make lasting changes in your life and relationships, email Natalie today and request to receive your FREE condensed version of "Create change Quickly".

*Wishing you and yours;*

*A life full of joy,  
love and  
abundance.*

*love Natalie*
